

Cargo Deck Solutions

Move Cargo Easier & Safer Throughout Your Operation

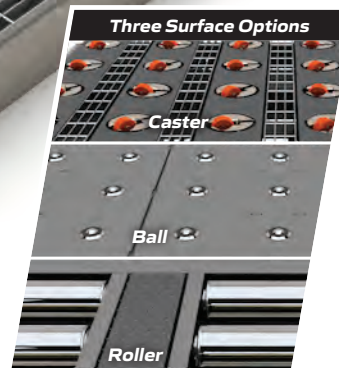

The full line of FAST cargo deck solutions are designed for easier manual movement of ULDs, cargo carriers and solid surface pallets. Constructed of heavy-duty steel with non-skid walking surfaces, each can be customized with optional roller, caster or ball decks to best fit the application. Standard dimensions or built to specifications, decks can be designed for interior or exterior use to help quickly maneuver cargo containers for loading and unloading on the ramp, at the hub or in the warehouse.

Optional hot dipped galvanized surface treatment for additional corrosion resistance

Heavy-duty steel construction with 15K lbs container capacity

360° swiveling plastic casters or steel balls for omni-directional maneuverability

Solid or grated top surfaces for interior or exterior use

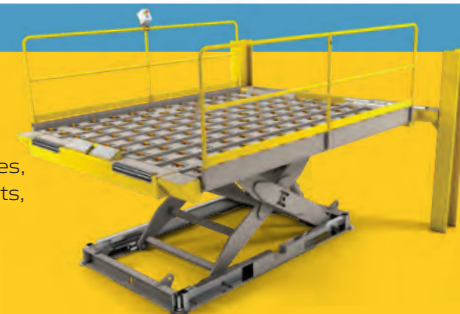

Roller, caster or ball deck surfaces to best fit application

Complementary FAST Equipment

- **Deck Scale** to quickly and easily weigh large ULDs and cargo containers

- **Hydraulic Deck Lift** to provide greater alignment of ULD dollies, trailers and dock heights, for ease in loading/unloading containers

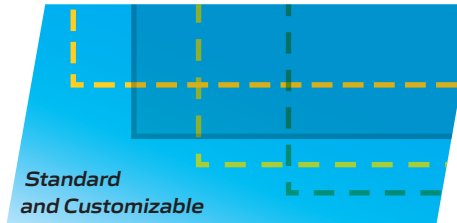

AIRCRAFT LOAD/UNLOAD
FREIGHT TRANSFER
CONVEYING OPERATIONS

Cargo Deck Design Options

Innovative Solutions to Improve Performance and Safety

FAST cargo decks can be built to order, based on the needs of your operation. In addition to size and surface options, deck designs can be further customized with a number of innovative solutions to help improve the performance and safety for ramp, hub and warehouse operations.

**Standard
and Customizable**

sizes/designs based on the application

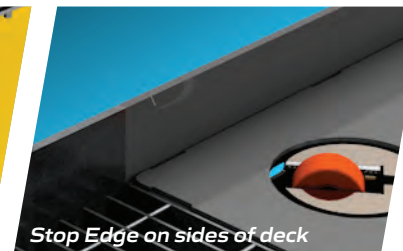

**Side
Rollers**

for smooth transitions from
dollies, trailers & docks

Side Skirting

to limit debris or elements from
collecting under decking surface

Stop Edge on sides of deck

to eliminate risk of dropped ULDs
or contact with off-deck equipment

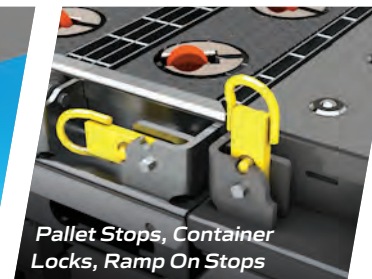

Toe Guards on casters

to maintain workflow and prevent
potential operator injuries

**Adjustable
Height Legs**

to align transfer heights for
loading/unloading ULDs

**Pallet Stops, Container
Locks, Ramp On Stops**

to quickly position or secure
containers in place

Modular systems

bolted together without welding, for
future needs or operational changes
