

# FAST Wolverine™

**Powered single-stage belted conveyor to maximize parcel unloading of ULDs.**

Specifically designed for sorting facilities, the FAST Wolverine conveyor improves the speed and reliability for unloading ULDs and cargo containers. Powered extension/retraction helps the operator easily position boom at any length, up to a max of 10 ft. to reach inside containers for ease of operation. Powered hydraulic lift cylinders adjust boom's work height to align with package elevation changes and allow operator to quickly work within their power zone. Narrow boom profile and 18 in. belt width provides access into the smallest ULDs and with proper egress.

**Narrow 18" belt width**  
for access into the  
smallest ULDs

**Boom extends** up to  
10 ft. to easily reach  
inside cargo containers

**Safety bumper**  
automatically retracts  
boom upon contact

**Base unit ports** provide  
quick access for repairs  
and replacements

**Open base design** for easy  
maintenance access to motor  
or hydraulic lift system

**Boom elevation** from  
21 to 37 in. to align with  
package elevation changes

ULD/PALLET MANEUVERABILITY

## Product Highlights

- **Narrow profile** provides access into small ULDs with proper egress
- **Powered adjustments** allow operator to quickly work within their power zone
- **Designed with added UHMW, brush and mesh guarding** to increase operator safety in sorting facilities
- **Quick and easy access areas** for maintenance or parts replacement

## SPECIFICATIONS

<b>Overall Length</b>	283.63 in.
<b>Retractable Length</b>	163.88 in.
<b>Extendable Boom Length</b>	119.75 in.
<b>Boom Elevation</b>	20.64 to 36.46 in.
<b>Boom Operation</b>	Powered extension/ retraction & raise/lower
<b>Machine Base Width</b>	30 in.
<b>Belt Width</b>	18 in.
<b>Belt Direction</b>	Unload Only
<b>Load Capacity</b>	50 lbs./linear ft.
<b>Belt Drive</b>	480 volt, 2.0hp motorized pulley
<b>Belt Speed</b>	50 - 80 - 100 ft./min
