

FAST Van Loader

Maximize delivery van loading operations and optimize dock door space.

Specifically designed to assist with loading parcel delivery vans at the dock door. Lightweight aluminum frame chute spans the load-down distance between dock and transport vehicle, improving package transfer rates and operator safety. Low-friction UHMW slider bed leverages natural gravity flow to ease package movement and increase volume throughput. Built-on swivel casters allow for service at several different stations.

Outward-angled integrated side panels help contain package flow

Built-in drain holes remove moisture

Folding gate handles secure chute at the door

Locking rear brake caster prevents rollaways

Grip pads adhere to dock plate and elevate chute casters to **limit movement** when in use

Built-on swivel casters for **easy movement** door-to-door

Package stop also functions as **lift handle** for **positioning chute**

Folding leg provides ergonomic height elevation inside van

Product Highlights

- Folds up for convenient storage when not in use
- Ships fully assembled

AIRCRAFT LOAD/UNLOAD
FREIGHT TRANSFER
CONVEYING OPERATIONS
ULD/PALLET MANEUVERABILITY

SPECIFICATIONS

Height	3 ft. 7½ in. (w/handle raised)
Width	4 ft. 3¼ in.
Length	8 ft. 7⁄8 in.
Weight	216 lbs.
Capacity	50 lbs/linear ft.
