

# Sorter-to-Door Chute System

**Easily transition from bulk flow to singular package movement.**

System of chutes to transition packages from the feeding conveyor or sorter, to the loading equipment for trailers and delivery vehicles. Designed to manage high volume bulk flow to single package flow, increasing ease of operator loading. Ideal use when incline exceeds +8° maximum guideline for herringbone or other gravity loader options.

AIRCRAFT LOAD/UNLOAD  
FREIGHT TRANSFER  
CONVEYING OPERATIONS  
ULD/PALLET MANEUVERABILITY

- **Heavy-duty** steel construction
- **Deep trough chutes** to center and singulate packages
- **12" to 24" side panels** available to help contain product movement
- Option to line surface with **low-friction material** to increase rate of product flow
- **Customized widths** to match conveyor or sorter system

## Specifications

<b>Material</b>	Concave Heavy-Duty Steel Bed
<b>System</b>	Straight incline and 90° curve
<b>Side Panels</b>	12 to 24 in.
<b>Structure</b>	Bolt-Up or Weld-Up
