

# Structures

**Accessibility, safety and support  
for conveying operations.**

Customizable structural elements designed to support, elevate, provide access and safety for conveying equipment and systems. Platforms, bridges, stairs, and ladders are constructed from structural steel, for strength and durability, with the option of weld-up or bolt-up assembly.

## Platforms

- Narrow **elevated walkway**
- Designed and built as **stand-alone structures** for component alignment or integration
- **Customizable** railing, kick plate and deck surface

## Stairs

- Customizable **height and width**
- **Safe** rise-to-run ratio
- Closed or open **risers** available
- **Customizable** railing, kick plate and surface

## Ladders

- **Angled** for more comfortable climb
- **Customizable height**
- **Anti-slip** step surfaces and handrails for safety
- **Code compliant** with 75 degree minimum slope

AIRCRAFT LOAD/UNLOAD

CONVEYING OPERATIONS  
ULD/PALLET MANEUVERABILITY

Weld-up  
Structure

Bolt-up  
Structure

## Assembly Structures

- Provides **stability** and **elevation** of conveyors, chutes, and other conveying equipment
- **Customizable** height
- Optional heavy-duty **bolt-up** or **weld-up** construction

ULD/PALLET MANEUVERABILITY

## Conveyor Hand Rail

- **Customizable** fixed post or cable rail style
- Cable rail is **stainless steel** 1/4" semi-rigid wire rope

## Cross-Over Bridges

- **Elevated** to clear conveyors and moving packages
- Designed to cross over **single** or **multiple** conveyor lines
- **Customizable** railing, kick plate and deck surface

*A world leader in airline, air cargo and material handling equipment for over 40 years, FAST Global Solutions designs, builds, installs and services an expansive portfolio of robust, ruggedly-built, dependable equipment for today's global commerce operations.*
